

Dear Community Partners:

The CARE (Community Alliance for Resources and Education) Coalition in partnership with Touchstone Health Services will be hosting the CARE Conference: ***Empowering Communities and Inspiring Youth*** which will focus on adolescent wellbeing and community resilience. It will be held in-person at the Renaissance Hotel in Glendale, on March 1, 2024, and will be open to all parents, schools, and youth serving organizations.

The goal is to promote young people's well-being and community resiliency by providing informative and educational presentations and awareness of services that are available to assist them in their daily lives.

We expect to have a great number of collaborating community agencies to enlighten families about the services that are available to them within their community. If you are looking to make a difference, this is certainly a great way to do so, and we would be honored to have your organization host a table at our in-person conference and/or have a space to promote your services at our virtual conference. Participation is completely free!

There will be a raffle held during the conference and if you or your organization would like to contribute an item to be raffled off, this would be greatly appreciated. Your contribution will help us give back to the community. If you are unable to donate, we still encourage your attendance at the event.

If you are interested in having a table at the conference and contributing to making this Adolescent Conference a success, please fill out the vendor form and return to Maria Navarrete at maria.navarrete@touchstonebh.org or you may call 602-451-7422 for any questions or concerns.

Thank you in advance for your consideration to be a part of this wonderful conference.

Sincerely,
Prevention Supervisor
Maria Navarrete
